

1-Year 6 Visit Survey

2-Year 3 Visit Survey

Year 1

Check survey dates and times. If conducted per pages 2-8 of protocol, were NSOs detected?

YES

Follow-up visit conducted per pages 8-9 of protocol?

YES

Were NSOs detected?

YES

NO

Survey effort not satisfactory to determine likelihood of incidental take.

Check survey dates and times. If conducted per pages 2-8 of protocol, were NSOs detected?

NO

YES

Follow steps for Year 1 "Yes"

No additional surveys required during the next 2 breeding seasons* (refer to pp. 3 of protocol). Seasonal restrictions not warranted.

Are NSOs nesting, as described on pages 12-15 of protocol?

YES or Undetermined

NO

Apply seasonal restriction Feb 1 - Aug 31 within 1/4 mile of nest. Surveys complete for this breeding season.

Seasonal restrictions not warranted for single or non-nesting pair. Surveys complete for this breeding season.

Continue with night surveys and conduct additional visits per page 10 of protocol.

Year 2 surveys required.

Year 2

*Example:
Negative survey results for 2006 and 2007 means that surveys are not required for 2008 and 2009. The next survey period would begin Feb 1, 2010.
